

**SlipStream Software to be Gold Sponsor at upcoming Aberdeen Group Manufacturing Conference, customer Purac to be primary presenter**

August 5, 2007 Alpharetta, GA, SlipStream Software the leading provider of root cause analysis for lean/process improvement for manufacturers will be a gold sponsor at Aberdeen Groups Manufacturing Conference to be held in Boston. In addition to being a primary sponsor of the event Purac a SlipStream Software customer from the Netherlands will be one of seven primary presenters on trends in lean and process improvement for manufacturing.

“Aberdeen Group sees the use of technology such as root cause analysis as one of the fundamental cornerstones that all manufactures must adopt in order to see true lean/process improvement. It is also reassuring that Aberdeen Group approach SlipStream asking if we could provide a customer to speak about their experiences with our software and the dramatic improvement they have experience first hand.” says Gary Hopkins President and CEO of SlipStream Software.
